

Collaborative To Prevent Central Line Associated Bacteraemia

Learning Session One (LS 1)

The Team

29th November 2011

Dr Mary Seddon

Clinical Advisor

A physician and public health doctor, she has been at CMDHB since 2000 and is currently the Clinical Director of Quality Improvement based at Ko Awatea. Her Harkness Fellowship was spent at Harvard Medical School where she studied the process and outcomes of patients with acute MI in fee for service and HMO systems. It was there that she came into contact with the thinking of the Institute for Healthcare Improvement. Mary and Catherine Hocking initiated and managed the Middlemore CLAB project.
