

Reusable networks

Dr. Shawn Sturland

07/03/2013

Reusable networks

- 1. Don't listen to your mates

Reusable networks

- 1. Don't listen to your mates
- 2. Don't listen to your mates

Reusable networks

- 1. Don't listen to your mates
- 2. Don't listen to your mates
- 3. Don't listen to your mates.....

Reusable networks

Reusable networks

- Timing...
 - rationing

Reusable networks

- Timing...
 - Rationing

–

Reusable networks

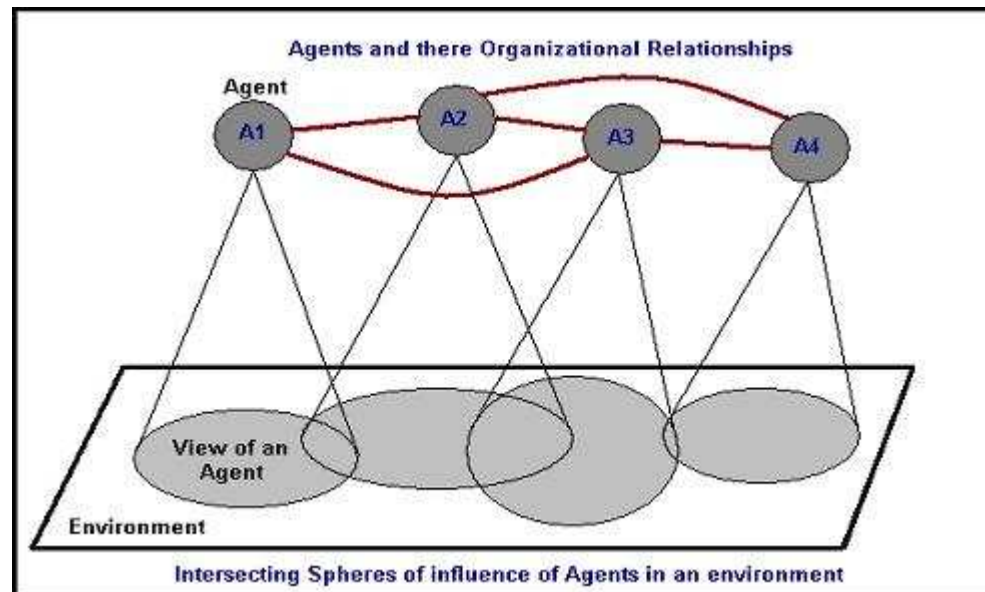

- So... you own “the new black”

Reusable networks

- So... you own “the new black”
- So... where are we?

Reusable networks

- ? Multi-agent system?

Reusable networks

- More complex
 - Similar micro structures
 - Evolved into a macro structure

Reusable networks

- More complex
 - Similar micro structures
 - Evolved into a macro structure
 - Complex
 - Self organized
 - Emergent
 - Communication
 - Cooperation
 - Specialization
 - Spatial/temporal organisation

Reusable networks

- Complex Adaptive system

Reusable networks

- “Nodes” have primary and secondary features..

Reusable networks

- So... where are we now?
 - Transitioning

Reusable networks

- So... where are we now?
 - Transitioning
 - Continue with “content”
 - Prepare with “process”

Reusable networks

- Should it be “owned”?
- Should it be “facilitated”?
- Should it be “co-ordinated”?

- 5 min

Reusable networks

- Are there similarities to other systems?
- SPSS
- NHS

Reusable networks

- Frame of mind
- Economies of scale
- Academia
- Normalisation in silo

- VIA
 - DHB, professional bodies, etc
- Steered by
 - HQSC, Ko-Awatea, other....

Reusable networks

- The next big thing?
