

Safety in Practice Year 2

Learning Session 1

Learning Session 1 is being held as an opportunity for any practice across the Auckland region to learn about the *Safety in Practice* programme and its benefits or build on existing information with an opportunity to engage in the programme for 2015/16.

Practices new to Safety in Practice

Why should you attend?

Participation will provide you with the opportunity to:

- Learn about the bundle of care chosen by you
- Introduction to reliable health care — using auditing care bundles to make high risk processes more reliable
- Learn about the Model for Improvement
- Learn about measuring and improving care in your high risk area
- Develop systems, processes, and tools to identify, monitor and prevent potentially harmful episodes to patients
- Provide an opportunity for General Practices to collaborate to learn from each other's experience

Year 1 Practices

Why should you attend?

Participation will provide you with the opportunity to:

- Learn about the bundle of care chosen by you for Year 2
- Build on the work you have already done within your practices
- Build on your Model for Improvement knowledge
- Progress systems and practices that support Safety in Practice for your patients
- Support your practice to continue to deliver excellent care
- Reflect on and drive improvements in your own practice and develop your sustainability plan

Who should attend?

- General Practice team members from Year 1 Safety in Practice
- General Practice team members new to Safety in Practice
- Core facilitators from PHOs across the Auckland region
- Advisory group, PHO Leaders, DHB leaders, programme sponsors
