# Driver Diagrams

# Focus overview

---

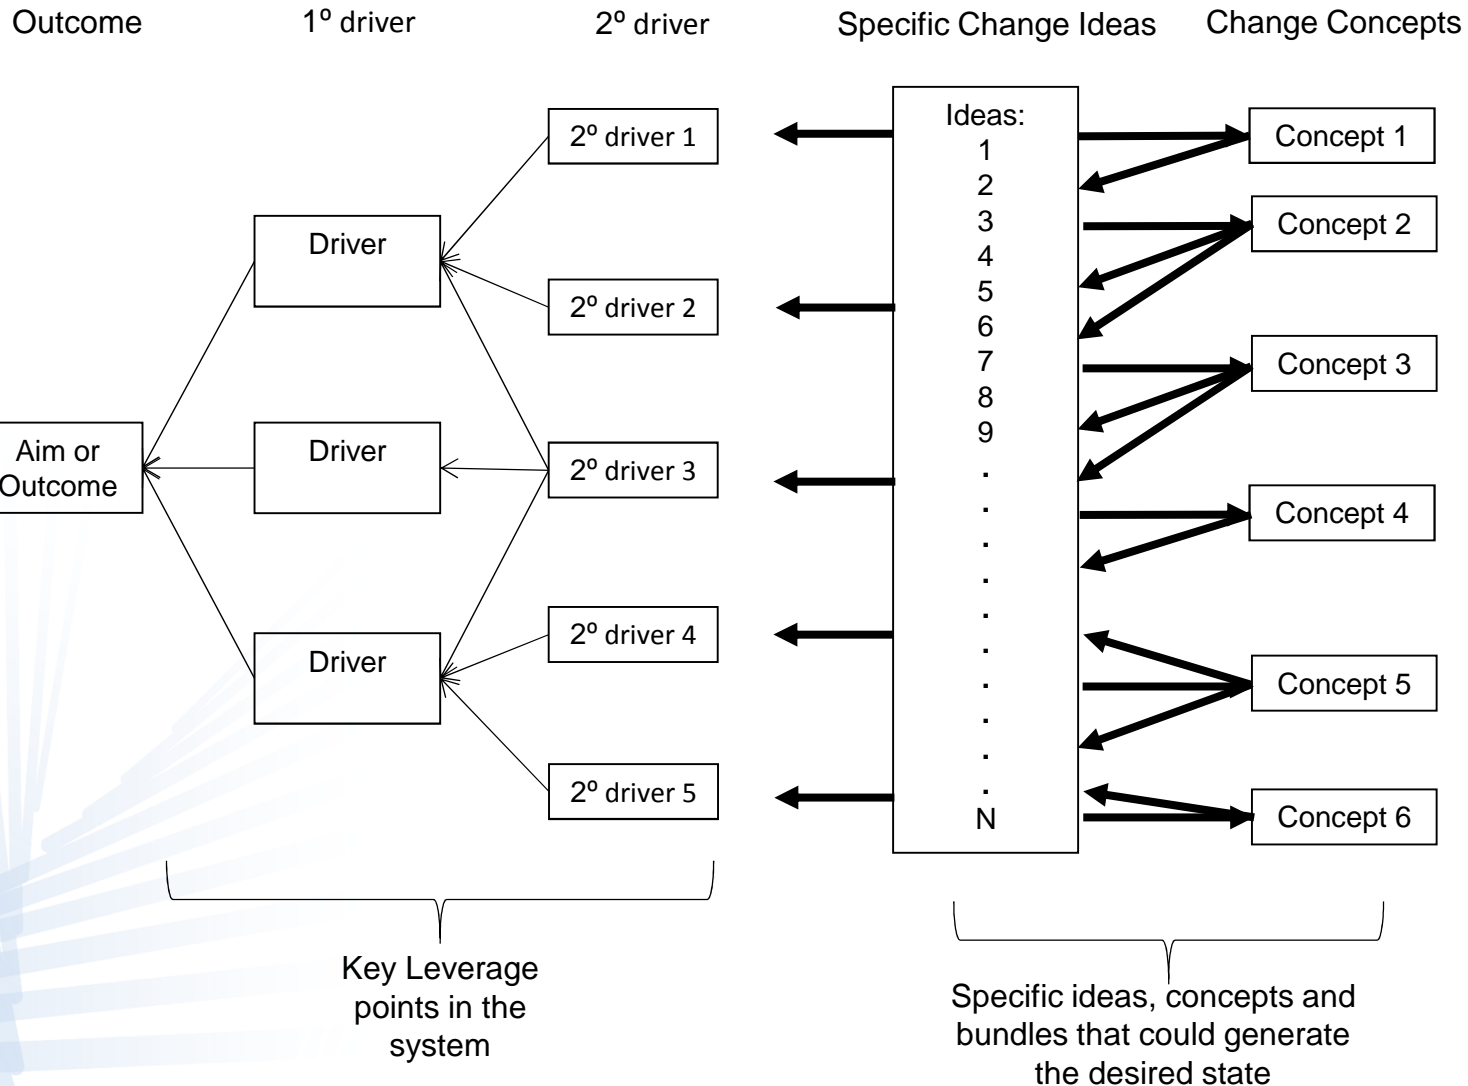

- Linking collaborative teams to overall campaign diagram
  - Building their theory (draw on blog post)
  - Large chunk of team time – 40-45 min
- 

# Improvement Science

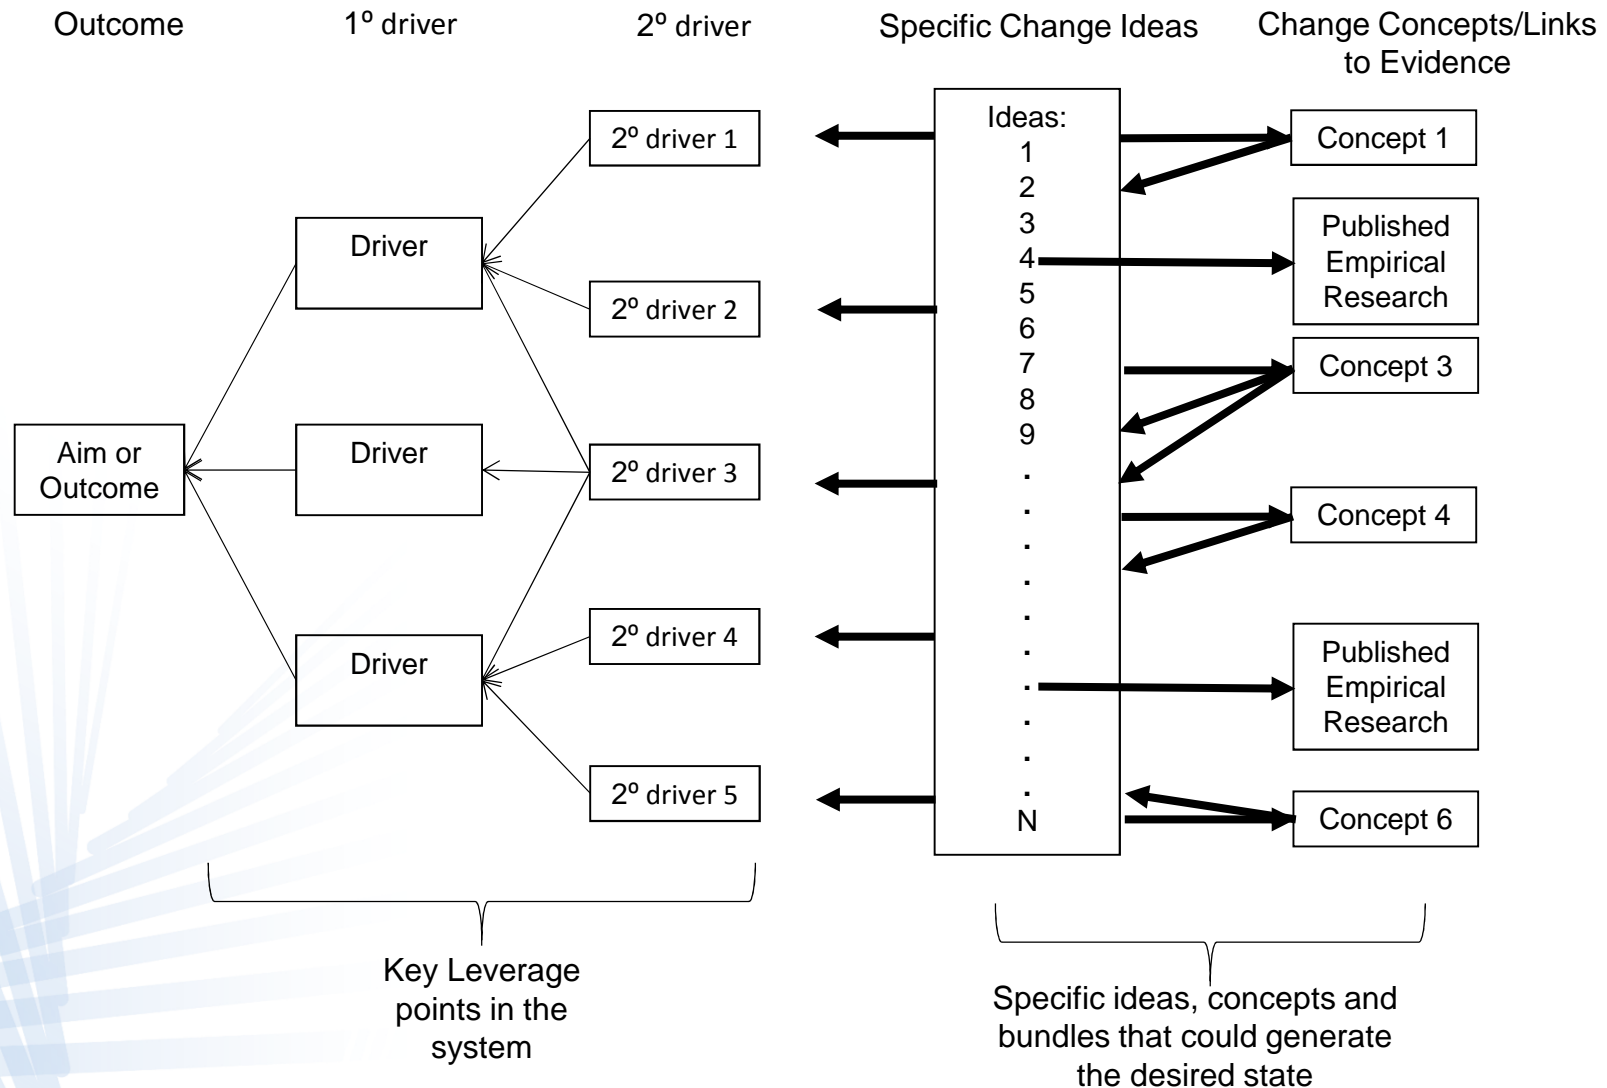

Deming, 1992

# Conceptual view of a driver diagram

# Conceptual view of a driver diagram

# How do we build one in practice?

---

1. **Convene a multi-disciplinary team** (for whom the outcome of the journey matters)
2. **Develop a specific aim** (know your destination)
3. **Review the relevant research** (deliberate study)
4. **Utilize variation** (steal shamelessly or benchmark)
5. **Engage the frontline** (workarounds, shortcuts, context)
6. **Visualize your shared theory** (draw it out, see the whole)
7. **Avoid perfection** (great theories evolve iteratively)

# Break out
