Our Collaborative Team

Organisational Buy In

Aim:

By 1 December 2016, increase the number of Advance Care Plans (ACP's) within Pacific communities by at least 100%.

Buy in & support from MoH, DHB, patients/families, community...

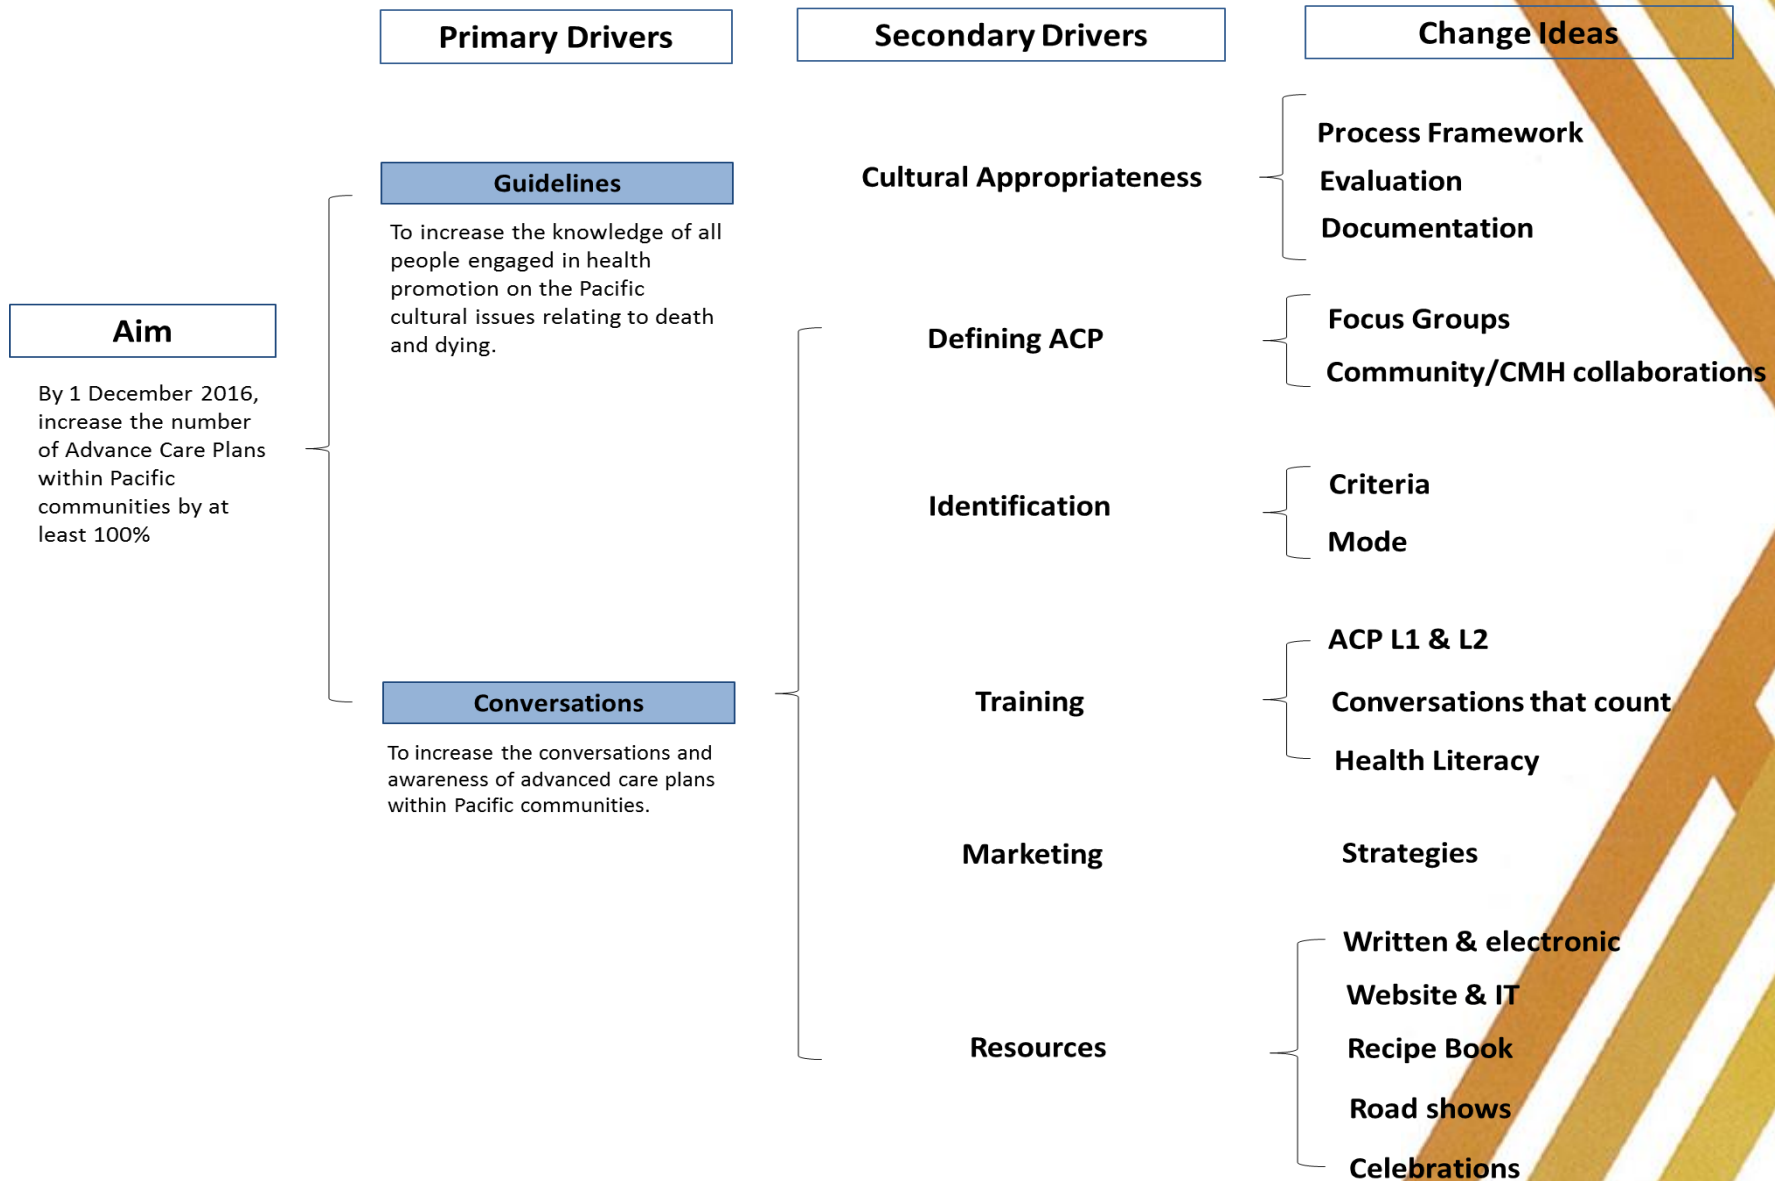

Like

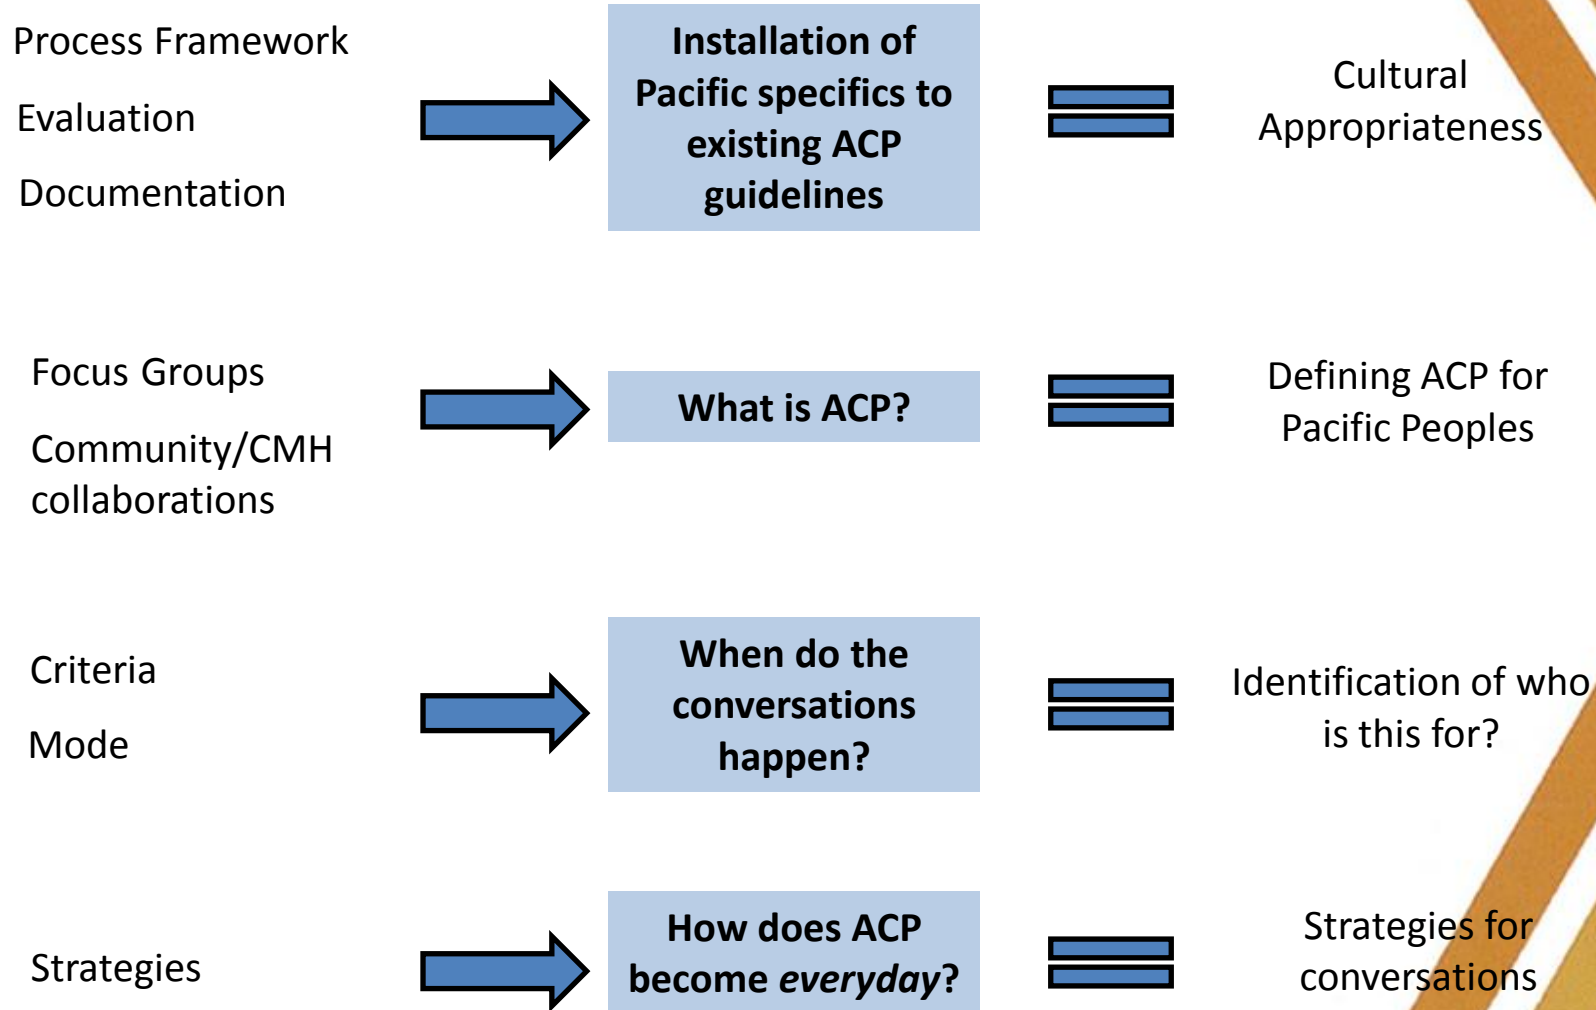

It just made sense !

- There isn't a (simple) term for Advance Care Plan in languages of the Pacific.
- The current ACP framework does not accommodate cultural perspectives, customs or traditions for Pacific peoples both as a collective group and as individual island nations.
- The data reports extremely low numbers of advance care plans are completed by Pacific people.

Highlights

So exciting to be moving forward.....

The inspiring opportunity to be part of a team making a difference in an area that causes anguish for Pacific families.

...Costs...difficult conversations...modern versus traditional...receiving the right health care...

Our work will make a difference health professionals guiding and working with Pacific families.

Not being stopped by circumstances

Inspiring leadership
