

# Bader Drive HealthCare

PHO and Facilitator: Alliance  
Health Plus, Serena Davis

Team members:

Dr Nua Tupai (GP)

Grace Lino (PN)

Meleane Hausia (Admin)

# Organisational “Buy - In”

**Aim:** To review our current process of opioids prescribing

## Buy-in

- Clinical team identified this area as a topic of interest for potential quality improvement
- Presentation to clinical team

# Change Ideas

- All GP's are prescribing safely and according to the analgesic ladder
- Opioids prescribing process is streamlined
- Management plan clearly documented
- Patient given clear instructions about potential side effects and when to report back to GP/PN

# What Changes have you tested?

# Most Successful PDSA Cycles?

## Plan

Random sample of 10 patients across all GP's  
using the query builders provided

## Do

Review clinical notes

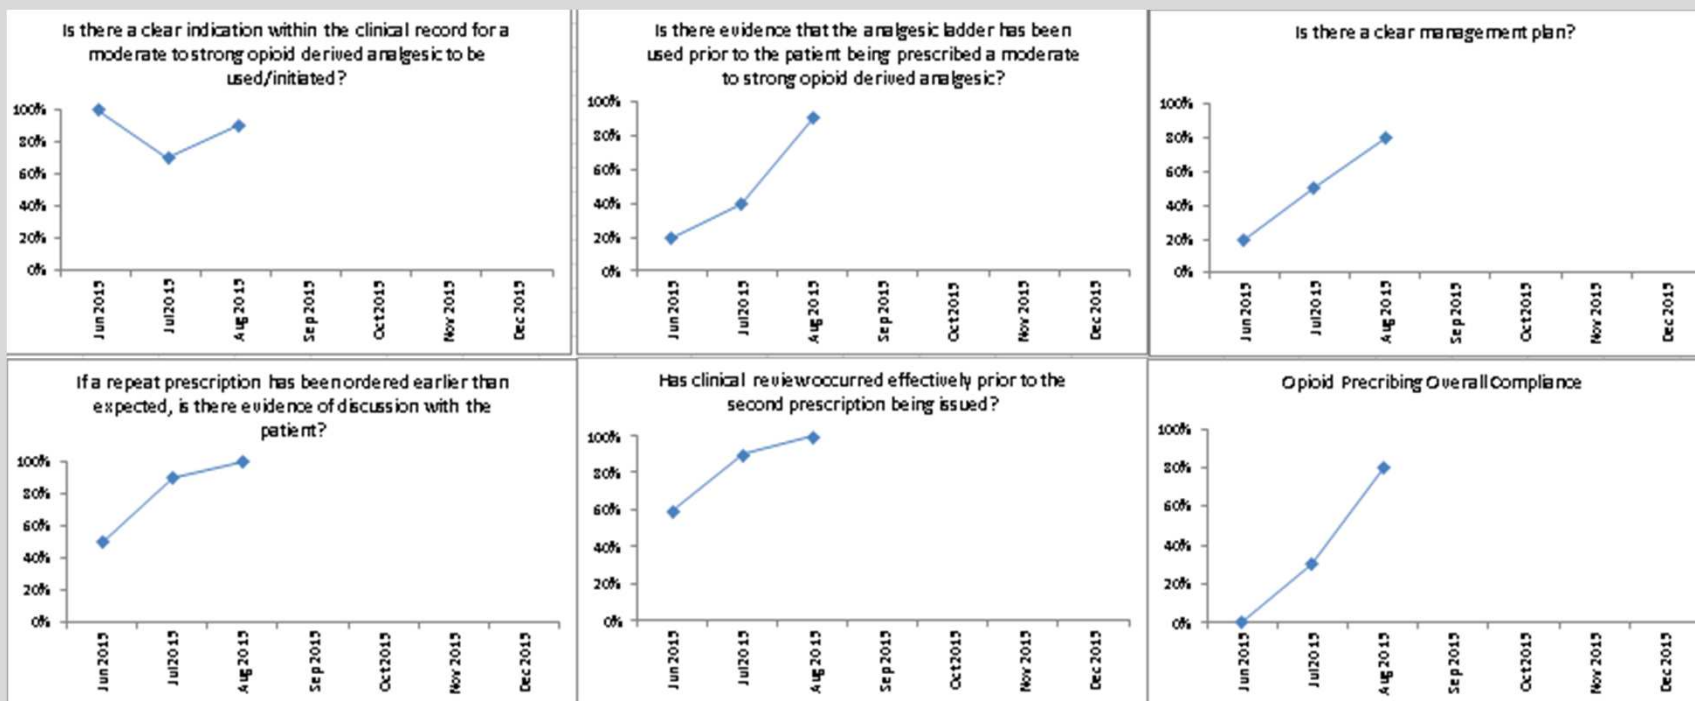

## Study

Use results from very first audit

## Act

Improve on results each month

# Measures Summary

# Highlights and Lowlights

## Highlights

- Audit data improved each month
- Reassurance that staff are following the process
- Potential areas for improvement
- EHR

## Challenges

- Time

# Achievements to date

Do you have an

- agreed aim - 😊
- a change package - 😐
- measurement plan - 😐

Do people on your team know what their responsibilities are and what is expected of them?

- 😐

What has changed and what difference have the changes made?

- 😐

## Any other achievements?
