

Medication Reconciliation – Kumeu Village Medical

Lesley Clapshaw, Practice Nurse

Liane Otto, Practice Manager

Our Experience So Far....

- At our first team meeting when the idea of participation in SIP was suggested our GPs were keen once key roles/mapping were agreed and they realised no further onerous workload for them.

Our Experience So Far....

- Inconsistency of clinical meeting times.. Lag of time between audit and changes implemented

- Medication Altered/Stopped status tool in Medtech.
- Yellow Card
- Lateral thinking of our internal systems
