

Quality Criteria ¹	Details	PDSA sample 1	PDSA sample 2	PDSA sample 3
	For each criteria	Yes/No comments	Yes/No comments	Yes/No comments
Learning question articulated? Questions posed?	Avoid yes/no questions.			
Objective for cycle stated?*				
Prediction present?	If possible, with theory in use.			
Change idea specified and developed?*				
Data collection plan? Logistics outlined? Data needed, articulated, or specified?	Ideally, framed as related to predictions.			
Execution yes/no? Change tested or implemented?*				
Data collected or reported?*				
Did they compare what happened with their predictions?				
New learning or theory refinement?	From the action phase: did they specific new learning or refine something about their theory?			
Suggested next steps?				
	Score = x/10 Yes = 1 No = 0			

*at least one of these should be clearly tied to subject matter
