

Health New Lynn

PHO and Facilitator: Procare

Nicki Brentnall and Andrew Jones

Team members: Peter Woolford, Ann
Davis, Sue Haywood, Sarah Mildon

Highlights and Lowlights

- ▣ Highlight –
 - ▣ Identifying the interactions between drugs not well documented.
 - ▣ A repeat prescribing policy developed and implemented
- ▣ Lowlights –
 - ▣ Ambiguous starting point
 - ▣ Slow uptake as not a nurse lead process as relied on doctors to make changes

Summary

- ▣ We have a clear picture of our current process around Tramadol prescribing.
- ▣ The increase in awareness of making sure allergies and drug reactions are currently updated.
- ▣ Health New Lynn completed a major overhaul of repeat prescribing of all medications and Tramadol will dovetail neatly into this new system.
