

Importing MedTech Advanced Forms

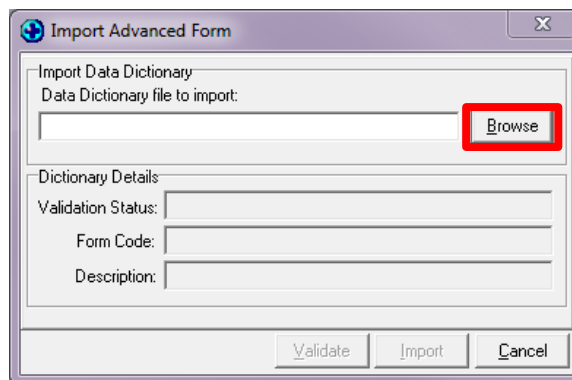

- 1) Drag and drop the .XML file to an easy place to find on your computer
- 2) In MedTech go to Setup → Advanced Forms → Advanced Forms Manager

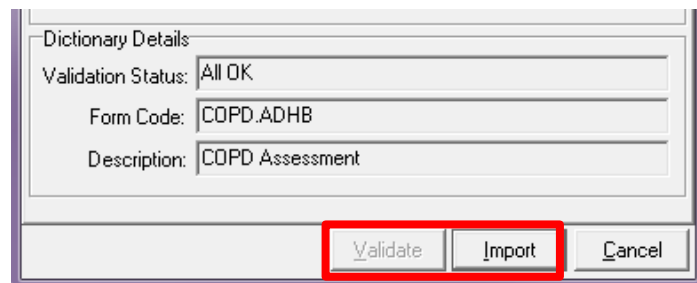

- 3) On the top toolbar go to Advanced Forms → Import Form

- 4) In the box click 'browse' and find where the .XML file is saved

- 5) Click 'Validate'. The 'Validation Status' should say 'All OK':

- 6) Click 'Import'. A popup confirming the form has been imported will appear. Click 'OK'.
